Information regarding Art. 33, Art. 67 and Annex XVII of the EC regulation no. 1907/2006 (REACH)

Dear Ladies and Gentlemen,

thank you for contacting us regarding REACH (EC 1907/2006).

According to Article 33(1) of this regulation, you have the right to expect Panasonic Electric Works, as supplier of an article, to perform the following duty:

Any supplier of an article containing a substance meeting the criteria in Article 57 and identified in accordance with Article 59(1) in a concentration above 0.1 % weight by weight (w/w) shall provide the recipient of the article with sufficient information, available to the supplier, to allow safe use of the article including, as a minimum, the name of that substance.

The Candidate List of "substances of very high concern" (SVHC) as specified by Article 59 of REACH was published for the first time at the end of October 2008, and other substances are added regularly.

Panasonic Electric Works is fully aware of its obligations resulting from REACH and intends to comply with the regulation in its entirety. To this end, we have set up a system to comply with the substance restrictions of REACH that allows us to provide downstream users with information on the substances of all products sold by Panasonic Electric Works Europe AG.

For you as a downstream user, we have placed all information at our disposal regarding SVHCs in the Candidate List for those products with a concentration above 0.1% w/w in the list of products attached to this letter.

For all other products, we believe to the best of our knowledge that there is no duty to communicate information according to Article 33. Thus they are not included in the attached "Positive List". If this status should change, we will of course take appropriate action to comply with the legal requirements.

Delivered products and product packaging, based on our current knowledge, comply with all requirements of REACH, specifically with the restrictions set forth in Article 67 and Annex XVII.

Please note: This information applies only to the customers of Panasonic Electric Works Europe AG, and NOT for products from other suppliers from the Panasonic Group.

With best regards,

Panasonic Electric Works Europe AG

i.V.
Christoph Oehler
Head of Environment & CSR

SVHC concentration > 0.1 w/w % - component level
